APPRENTICE

APP-450 Apprenticeship Work Experience

Prerequisite: None DESCRIPTION: Opportunity to develop attitudes, skills, and knowledge consistent with their selected trade. A journeyman or professional mentor provides instruction and evaluation of skills expected of an apprentice. Emphasis is on trade employability skills and attitudes. Students complete apprenticeship work experience hours at approved trainingsites. This four-unit course requires 300 hours of paid work experience. Students may take up to 16 units of apprenticeship work experiences course offerings. (Letter grade or Pass/No Pass option.)

38268 APP-450 Lecture

Online classes are distance education classes with no scheduled meeting days. Students will log in to Canvas and complete work regularly throughout the week. Canvas and other technologies will be required to complete coursework. The above section is restricted to students participating in Norco Colleges Apprenticeship Program. For more information about the apprenticeship program, please contact CTE@norcocollege.edu

ARABIC

ARA-1 Arabic 1

Prerequisite: None Description: Develops basic skills in listening, reading, speaking and writing. Emphasis on acquisition of vocabulary, structures and grammatical patterns necessary for comprehension of native spoken and written Arabic at the beginning level. Includes discussion of Arabic culture and daily life. 90 hours lecture and 18 hours laboratory. (TBA option) (Letter Grade, or Pass/No Pass option.)

BIO-18 Human Genetics (formerly Bio-34)

Prerequisite: None Advisory: High school biology or any college life science course with laboratory. Description: A general education course for non-biology majors and allied health students who are interested in the underlying mechanisms of human heredity. Emphasis will be given to the role of genetics and environment on cells, individuals, family and human populations. Discussion on human genetic disorders and the social implications of modern human genetics will be included. 54 hours lecture. (Letter grade only)

BIO-60 Introduction to Molecular and Cellular Biology (formerly Bio-11)

Prerequisite: CHE-1A or CHE-1AH Advisory: MAT-35, ENG-50, ENG-80or qualifying placement level Description: An intensive course for all Life Science majors designed to prepare the student for upper division courses in molecular biology, developmental biology, evolution, and genetics. Course material includes principles of biochemistry, prokaryotic and eukaryotic cell structure and function, metabolism including photosynthesis and respiration, cell division and its control, classical and molecular genetics, signal transduction, early animal development, evolution and the diversity of life at the cellular level. 72 hours lecture and 54 hours laboratory.

38337 BIO-60 Lecture 5 MW 11:30AM-01:35PM ATEC-114 J Julius 08/19 - 12/14/24 Lab 01:50PM-05:00PM ST-203 08/19 - 12/14/24

Canvas and other online applications may be required to complete coursework.

BIO-61 Introduction to Organismal and Population Biology (formerly Bio-12)

Prerequisite: BIO-60 or BIO-60H Description: An intensive course designed for all Life Science majors to prepare the student for upper division courses in organismal and population biology. Course materials include plant structure and function, animal systems and behavior, ecological diversity and dynamics, and evolutionary theory, including population genetics. This course along with Biology 60 is intended to fulfill a year of transferable lower division general biology. Some field trips are required. 72 hours lecture and 54 hours laboratory. (Letter Grade, or Pass/No Pass option.)

Please note the start and end dates. Computer with Internet access required. See www.rccd.edu/de FCO-8 Principles of Microeconomics Prerequisite: MAT-52 or qualifying placement level Advisory: MAT-35 Description: Economic theory and analysis as applied to consumer and producer behavior in markets. Emphasizes the allocation of resources and the distribution of income through the price mechanism, and deals with the microeconomic concepts of equilibrium in product and factor markets, perfect and imperfect competition, government intervention in the private sector, and international trade and finance. 54 hours lecture. (Letter grade) 38581 FCO-8 ON-LINE Lecture T Cummings 08/19 - 12/14/24 The above section is an online class. Computer with Internet access required. See www.rccd.edu/de 38583 ECO-8 11:15AM-12:40PM ATEC-204 Lecture 3 TTh A Shotwell 08/19 - 12/14/24 Canvas and other online applications may be required to complete coursework. 38585 ECO-8 3 ON-LINE Lecture T Cummings 08/19 - 12/14/24 The above section is an online class. Computer with Internet access required. See www.rccd.edu/de **ELECTRICITY** Residential Electrical Wiring Prerequisite: None Description: The course introduces students to wiring methods commonly used in residential electrical wiring. Topics include wiring of electrical switches, receptacles, code requirements for kitchen, bathroom, GFI and AFI devices, raceways, and boxes. Laboratory allows students to wire and test sample wall and ceiling sections. 54 hours lecture and 54 hours laboratory.(Letter Grade, or Pass/No Pass option) (Same as ELE-71) 38586 ELC-71 Lecture S 08:00AM-11:10AM ATEC-119 D Adams 08/19 - 12/14/24 S 11:40AM-02:50PM ATEC-119 08/19 - 12/14/24 Canvas and other online applications may be required to complete coursework. 39442 ELC-71 Lecture 4 TTh 06:00PM-07:25PM ATEC-119 D Adams 08/19 - 12/14/24 TTh 07:35PM-09:00PM ATEC-119 Lab 08/19 - 12/14/24 Canvas and other online applications may be required to complete coursework. Commercial and Industrial Electrical Wiring Prerequisite: None Description: Wiring of commercial and industrial buildings including equipment grounding, service grounding, power distribution, conduit types, metal, plastic, flexible, bending and supporting, light distribution and blueprint reading. Hands-on lab experiences are selected to reinforce key theories. 54 hours lecture and 54 hours laboratory. (Letter Grade, or Pass/No Pass option) (Same As ELE-72) 38587 ELC-72 Lecture 08:00AM-11:10AM ATEC-119 J Roman 08/19 - 12/14/24 F 11:40AM-02:50PM ATEC-119 08/19 - 12/14/24 Canvas and other online applications may be required to complete coursework ELC-73 **Electric Motors and Transformers** Prerequisite: None Description: Enables electricians to understand and effectively wire most standard DC motors, servos and steppers, as well as many AC motors, including single and poly-phase units, from fractional horsepower to multi-horsepower, industrial giants. 54 hours lecture and 54 hours laboratory. (Letter Grade, or Pass/No Pass option.) (Same as FI F-73) 38588 ELC-73 06:00PM-09:10PM IT-124 08/19 - 12/14/24 Lecture A Munoz 06:00PM-09:10PM IT-124 Th 08/19 - 12/14/24 Canvas and other online applications may be required to complete coursework. ELC-74 Industrial Wiring and Controls Prerequisite: None Course Credit Recommendation: Degree Credit Description: Industrial controls and electrical wiring of modern facilities, manufacturing, or warehousing. Included will be production equipment, conveyor systems, hydraulic and pneumatic controls, power distribution, blueprint reading, electrical control wiring, PLC (programmable logic controller) control wiring, VFD (variable frequency drives) wiring and programming. 54 hours lecture and 54 hours laboratory. (Letter Grade or Pass/No Pass option) (Same as ELE/ MAN-74) 38589 ELC-74 MW 06:00PM-07:25PM IT-124 N Leighton 08/19 - 12/14/24 Lecture 4 MW 07:35PM-09:00PM IT-124 G Graham Lab 08/19 - 12/14/24 Canvas and other online applications may be required to complete coursework. Solid State Devices and Lighting Controls Prerequisite: None Course Credit Recommendation: Degree Credit Description: Students will learn about solid state device (electronics), sensors, SCR (silicone control rectifier), transistors, proximity and light sensors used in most industrial and commercial installations. Included will be showing students different types of sensors used for controlling motors,

Canvas and other online applications may be required to complete coursework.

SECT# Course# ZTC/LTC Units Days Time Bldg-Room Instructor ELC-76 Low Voltage Wiring and Alternate Energy Generation Prerequisite: None Course Credit Recommendation: Degree Credit Description: Introduces electricians to the specialized needs and requirements of institutional, educational and government entities, along with overlapping demands of other specialty areas that include access-control, security/safety, flood, fire and gas detection, environmental controls and renewable energy systems, patient-monitoring, nurse-call, closed-circuit television (CCTV), Internet-Intercom and phone systems and remote-monitoring and control applications. 36 hours lecture and 54 hours laboratory. (Letter Grade, or Pass/No Pass option.) (Same as ELE-76) 38591 ELC-76 Т 07:00PM-07:50PM IT-202 K Rad 08/19 - 12/14/24 07:00PM-08:05PM IT-202 08/19 - 12/14/24 Th TTh 08:15PM-09:40PM IT-202 I ab 08/19 - 12/14/24 Canvas and other online applications may be required to complete coursework. ELC-77 **Electrical Theory for Electricians** (Same as MAN/ELE-77) Prerequisite: None Description: An introduction to electrical theory, Ohm's Law, magnetism, electromagnetism, voltage, resistance, current, inductance, capacitance, reactance, impedance, Watts, Volt-Amps, VARs, current control devices, sensors and actuators phase angle, power-factor, transformers, motors, power distribution systems, and proper usage of electrical test equipment (meters). Student will learn concepts of electrical power, energy, Kirchoff's Laws, along with basic math to solve fundamental electrical problems for both alternating current (A.C.) and direct current (D.C.) circuits. Student will learn basic electrical safety procedures, including the proper use and requirements for personal protective equipment (PPE). 36 hours lecture, 54 hours lab. (same as ELE/MAN-77) 07:00PM-07:50PM IT-202 38592 ELC-77 Lecture 3 M K Rad 08/19 - 12/14/24 W 07:00PM-08:05PM IT-202 08/19 - 12/14/24 MW 08:15PM-09:40PM IT-202 08/19 - 12/14/24 Canvas and other online applications may be required to complete coursework. **ELECTRONICS** ELE-10 Survey of Electronics Prerequisite: None Description: Basic electronic theory featuring electron-flow, Ohm's, Watt's, and Kirchoff's Laws, analog DC and AC devices, circuits, parameters and equations, diodes, transistors, thyristors, digital logic, integrated circuits, power supplies, amplifiers, oscillators, with laboratory test and measurement equipment. 63 hours lecture and 27 hours laboratory.(Pass/No Pass Letter Grade) 38593 ELE-10 Lecture 08:00AM-11:35AM IT-202 K Rad 08/19 - 12/14/24 F Lab 11:45AM-01:10PM IT-202 08/19 - 12/14/24 Canvas and other online applications may be required to complete coursework. Digital Techniques Prerequisite: NONE Advisory: ELE-10 or ELE-11 or ELC-77 or ELE-23 Description: Mathematics, number systems and logic circuits as they relate to modern electronic computers and digital systems. Boolean algebra, circuit simplifications and mapping are included. Basic gate and digital circuits (MSI-LSI) will be analyzed and integrated into complete systems. Digital counters, registers, encoders/decoders, converters and timing. 54 hours lecture and 54 hours laboratory. (Letter grade only) 08:00AM-11:10AM IT-202 38595 ELE-25 4 S K Rad 08/19 - 12/14/24 Lecture Lab S 11:40AM-02:50PM IT-202 08/19 - 12/14/24 Canvas and other online applications may be required to complete coursework. ELE-27 **Technical Communications** Prerequisite: None Descriptiopn: Procedures for organizing and presenting technical data through informal and formal documents and presentations. Includes practice in writing memoranda, letter reports, and formal technical reports. Also includes discussion of personal resume and preparation of job applications. 54 hours lecture. Same as ENE-27 (Letter grade only) 07:45AM-10:55AM IT-125 38596 ELE-27 3 W B Curry 08/19 - 12/14/24 Lecture Canvas and other online applications may be required to complete coursework. ENG-1AH Honors English Composition
Prerequisite: Eligibility for college-level composition or qualifying placement for ENG 1A. Limitation on enrollment: Enrollment in the Honors Program. Description: Emphasizes skills in critical reading, and writing, including research. Integrated reading and writing assignments respond to various rhetorical situations. Students will produce a minimum of 7500 words of assessed writing. Classroom instruction integrates writing lab activities. This Honors course offers an enriched experience for accelerated students through limited class

ENG-4 Writing Tutor Training
Prerequisite: ENG-1A or ENG-1AH Description: Designed to prepare students to become peer tutors in the Writing Center. Participants learn specific tutoring techniques and discuss problems, questions, and challenges in tutoring writing. Tutors develop student-centered, non-intrusive tutoring skills that avoid appropriating the text (i.e., becoming a proofreader, editor, or co-author). Topics include theory and practice of tutoring writing, including writing as a process, interpersonal communication techniques, cross-cultural tutoring, group learning, and computer programs applicable to writing instruction. 27 hours lecture and 27 hours laboratory. (TBA option)

Oral Skills II: Intermediate Oral Communication

Prerequisite: None Advisory: ESL-91 (completion) or ESL-47 or ESL-847 (qualification or concurrent enrollment) Description: This course develops intermediate conversation, pronunciation, idiomatic and aural comprehension skills. It is intended for non-native speakers of English who can make themselves understood but are not yet proficient in self-expression. Conversational and idiomatic skills focus on fluent and appropriate use of oral communication skills in a variety of social, business and/or academic situations. Pronunciation focuses on clearer articulation of English vowels and consonants and on increased control of the stress, intonation and rhythm of English. Listening comprehension stresses understanding verbal instructions and questions on campus and in the workplace. Students continue to learn appropriate verbal and non-verbal behavior as well as conversation management techniques to exchange ideas in small and large group communication. 54 hours lecture and 18 hours laboratory. (Non-degree credit course. Pass/No Pass only.)

39372 ESL-92 Lecture 3 ON-LINE M Shirinian 09/02 - 12/14/24 Lab ON-LINE 09/02 - 12/14/24

The above section is an online class. Computer with Internet access required. See www.rccd.edu/de

ETHNIC STUDIES

Introduction to Ethnic Studies

Prerequisite: None. Description: An introduction to the academic discipline of Ethnic Studies. Ethnic Studies is unique as an educational experience that defines and redefines the lives of people of color from their own perspectives. This course is an intersectional investigation that focuses on the histories, cultures and experiences of African Americans, Latinx peoples, Asian American and Pacific Islander, Indigenous peoples of America, and Middle Eastern and Arab American. Additionally, this course shall explore the work of key theorists of race, ethnicity, de-colonization and futurity whose work and ideas have formed the basis of the discipline. This course is in dialogue with the creative historical work of social movements, cultural and artistic productions, legal and public policy activisms, indigenous and liberationist epistemologies, community and identity formation, and radical social and political thought. This course emphasizes ideologies of resistance, persistence, liberation struggle, and radical knowledge production that both confront and transform oppressive conditions and create new possibilities for social change. (Letter grade only)

See www.rccd.edu/de MAN-55 Occupational Safety and Health Administration (OSHA) Standards for General Industry Prerequisite: None Description: Covers OSHA policies, procedures, and standards, as well as safety for general industry and health principles. Topics include scope and application of the OSHA general industry standards. Special emphasis is placed on those areas that are the most hazardous, using OSHA standards as a guide. Upon successful course completion, the student will receive either an OSHA 10 hour general industry or construction industry training completion card. 18 hours lecture. (Letter Grade, or Pass/No Pass option.) 38933 MAN-55 ON-LINE K Mosley 08/19 - 12/14/24 Lecture The above section is an online class. Computer with Internet access required. See www.rccd.edu/de Hydraulic and Pneumatic Systems Prerequisite: None Advisory: ENE-60 or MAT-52 Description: Basics of hydraulic and pneumatic systems including physical properties of liquids under pressure. Pumps, motors, accumulators, valves and drive cylinders are studied. The design and assembly of both high and low pressure fluid control systems from standard components is experienced. Applications of fluids in robotic and industrial equipment systems are presented. 54 hours lecture and 54 hours laboratory. (Letter Grade, or Pass/No Pass option.) 38936 MAN-60 Т 06:00PM-09:10PM IT-125 P Van Hulle 08/19 - 12/14/24 06:00PM-09:10PM IT-123 Th 08/19 - 12/14/24 Canvas and other online applications may be required to complete coursework. Commercial and Industrial Electrical Wiring MAN-72 Prerequisite: None Description: Wiring of commercial and industrial buildings including equipment grounding, service grounding, power distribution, conduit types, metal, plastic, flexible, bending and supporting, light distribution and blueprint reading. Hands-on lab experiences are selected to reinforce key theories. 54 hours lecture and 54 hours laboratory. (Letter Grade, or Pass/No Pass option) 38938 MAN-72 08:00AM-11:10AM ATEC-119 Lecture J Roman 08/19 - 12/14/24 I ah 11:40AM-02:50PM ATEC-119 08/19 - 12/14/24 Canvas and other online applications may be required to complete coursework. **Electric Motors and Transformers** Prerequisite: None Description: Enables electricians to understand and effectively wire most standard DC motors, servos and steppers, as well as many AC motors, including single and poly-phase units, from fractional horsepower to multi-horsepower, industrial giants. 54 hours lecture and 54 hours laboratory. (Letter Grade, or Pass/No Pass option.) 38939 MAN-73 4 06:00PM-09:10PM IT-124 08/19 - 12/14/24 06:00PM-09:10PM IT-124 I ab Th 08/19 - 12/14/24

MAN-74 Industrial Wiring and Controls

Canvas and other online applications may be required to complete coursework.

Prerequisite: None Description: Industrial controls and electrical wiring of modern facilities, manufacturing, or warehousing. Included will be production equipment, conveyor systems, hydraulic and pneumatic controls, power distribution, blueprint reading, electrical control wiring, PLC (programmable logic controller) control wiring, VFD (variable frequency drives) wiring and programming. 54 hours lecture and 54 hours laboratory. (Letter Grade or Pass/No Pass option) (Same as ELC/ELE-74)

08/19 - 10/11/24

A Smith

SECT# Course#	Instruction	ZTC/LTC	Units	Days	Time	Bldg-Room	Instructor	Dates

Canvas and other online applications may be required to complete coursework.

MAN-77 **Electrical Theory for Electricians**

Prerequisite: None Description: An introduction to electrical theory, Ohm's Law, magnetism, electromagnetism, voltage, resistance, current, inductance, capacitance, reactance, impedance, Watts, Volt-Amps, VARs, current control devices, sensors and actuators phase angle, power-factor, transformers, motors, power distribution systems, and proper usage of electrical test equipment (meters). Student will learn concepts of electrical power, energy, Kirchoff's Laws, along with basic math to solve fundamental electrical problems for both alternating current (A.C.) and direct current (D.C.) circuits. Student will learn basic electrical safety procedures, including the proper use and requirements for personal protective equipment (PPE). 36 hours lecture, 54 hours lab. Pass/No Pass, Letter Grade. (same as ELC/ELE-77)

38941 MAN-77	Lecture	3	M	07:00PM-07:50PM IT-202	K Rad	08/19 - 12/14/24

Canvas and other online applications may be required to complete coursework.

MARKETING

39038 MKT-20

MKT-20 Principles of Marketing Prerequisite: None Advisory: BUS-10 Description: Examines the role of marketing as it relates to society and economic development. The course will analyze products, consumer,

marketing research and strategic market planning. The course will survey with a global perspective, the selection of target markets as well as the development of the marketing mix place, product, price and promotion. 54 hours lecture.(Lettetr grade) **ON-LINE**

3

The above is a short term online class. Computer with Internet access required. See www.rccd.edu/de

MKT-40

Prerequisite: None Description: Economic, professional, persuasive and technical aspects of advertising, publicity and propaganda, and their relation to sociology and psychology. Campaign organization, research and media of communication. Analysis and discussion of situation problems, mass motivation, consumer action and legal restraints. 54 hours lecture. (Letter Grade, or Pass/No Pass option.)

39039 MKT-40 ON-LINE A Smith 10/14 - 12/14/24

The above is a short term online class. Please note the start and end dates. Computer with Internet access required. See www.rccd.edu/de

MAT-1AH Honors Calculus I

Prerequisite: MAT-10 or MAT-23 or MAT-9 and MAT-36 or qualifying placement Limitation on Enrollment (e.g. Performance tryout or audition): Enrollment in the Honors Program Description: Functions, limits, continuity, techniques and applications of differentiation, the Fundamental Theorem of Calculus, and basic integration. This Honors course offers an enriched experience for accelerated students through limited class size; seminar format; focus on primary texts; and application of higher-level critical thinking skills. Students may not receive credit for both MAT-1A and MAT-1AH. 72 hours lecture and 18 hours laboratory. (Letter Grade or Pass/No Pass option)

MAT-9 Bstem College Algebra
Prerequisite: Intermediate Algebra or Qualifying Placement. Description: College-level algebra for those majoring in business, science, technology, engineering, and mathematics: polynomial, rational, radical, absolute value, exponential, and logarithmic functions and their graphs; systems of equations; theory of polynomial equations; analytic geometry; sequences and series. Students cannot receive credit for MAT-9 if they have already received credit for MAT-10 or MAT-23. 90 hours lecture. (Letter Grade or Pass/No Pass option)

SECT# Course# ZTC/LTC Units Days Bldg-Room MAT-105 Corequisite Support for Math 5 Prerequisite: Qualifying Placement Corequisite: MAT-5 Description: A concurrent co-requisite course containing geometry and algebra concepts designed to support students in Calculus for Business and Life Science. Topics include a review of skills developed in geometry and intermediate algebra: area and volume, factoring, graphing, operations on rational and radical expressions, linear, exponential and logarithmic expressions and equations, functions including composition and inverses, and an in-depth focus on linear and quadratic functions. Topics are taught strategically throughout the semester to provide a "just in time" instruction of skills needed to master concepts in MAT 5 as they arise in that course. A diverse approach to problem solving processes and enhancement of study strategies will prepare the student for later university courses. 36 hours lecture. (Pass/No Pass.) 38946 MAT-105 2 W 02:30PM-04:40PM WFQ-W6A J Mulari 08/21 - 12/04/24 Enrolling in the above course will require enrolling in MAT-5-39015. The above section is a short term class. Please note the start and end dates. Canvas and other online applications may be required to complete coursework. Corequisite Support for MAT-9 Prerequisite: None Corequisite: MAT-9 Description: A concurrent corequisite course containing arithmetic and basic algebra concepts designed to support students in BSTEM College Algebra. Topics include a review of skills developed in arithmetic and algebra: operations on real numbers, simplifying algebraic expressions, factoring, graphing linear functions, operations on rational and radical expressions, linear and quadratic expressions and equations. Topics are taught strategically throughout the semester to provide a "just in time" instruction of skills needed to master concepts in MAT-9 as they arise. A diverse approach to problem-solving processes and enhancement of study strategies will prepare the student for later university courses. 18 hours lecture. (Pass/No Pass only) 38947 MAT-109 F 08:45AM-09:50AM LIBR-108 L Ting 08/23 - 12/06/24 Enrollment in the above class requires first enrolling in MAT-9-39020 This section is a short term class. Please note the start and end dates. Canvas and other online applications may be required to complete coursework. **MUSIC** MUS-3 Fundamentals of Music Prerequisite: None Advisory: MUS-32A or Concurrent enrollment in an appropriate level piano class. Description: Through guided music notation and analysis, Fundamentals of Music incorporates the following concepts: Rhythm and meter; basic properties of sound; intervals; diatonic scales and triads; diatonic chords; basic cadential formulas and phrase structure; dominant seventh; figured bass symbols; and non-harmonic tones. Development of skills in handwritten notation is expected. Laboratory includes sight singing and ear training activities that incorporate melodic, harmonic, and rhythmic dictation. Keyboard activities require the playing of major and minor scales, modes, triads, and seventh chords. 54 hours lecture and 54 hours laboratory. (TBA option) 39053 MUS-3 Lecture 08:40AM-09:50AM IT-106 M K Kamerin 08/19 - 12/14/24 WF 08:40AM-09:30AM IT-106 08/19 - 12/14/24 Lab MF 09:50AM-10:40AM IT-106 08/19 - 12/14/24

# PHI-11 Critical Thinking and Analytic Writing

Prerequisite: ENG-1A or ENG-1AH Description: Presents critical thinking as a skillset employed in effectively understanding, evaluating, and constructing written arguments. Develops and enhances the student's ability to identify, analyze, and present arguments beyond the level achieved in English 1A. Topics covered through analysis and writing include the nature of argument, inductive and deductive reasoning, rhetoric, theory of knowledge, and common fallacies. This material will be introduced through the treatment of arguments from significant philosophers of culturally diverse backgrounds, arguments concerning the nature and application of scientific method, and arguments concerning topical social, political, and/or ethical issues. The central focus is instruction and practice in the composition of argumentative essays. Students write a minimum of 5000 words during the course. 54 hours lecture.

The above section is a short term online class. Please note the start and end dates. Computer with Internet access required. See www.rccd.edu/de

# **WORK EXPERIENCE**

WKX-200 General Work Experience

Prerequisite: None Advisory: Students should have paid or voluntary employment Description: Work Experience is designed to coordinate the student's on-the-job training with workplace skills designed to assist the student in developing successful professional skills. Each student will establish measurable learning objectives appropriate for their job and discipline. Students may earn up to four (4) units each semester, for a maximum of 16 units of work experience total. 60 hours of volunteer work or 75 hours of paid work during the semester are required for each unit. No more than 20 hours per week, out of the 60 or 75 requirement, may be applied toward the work requirement. The course consists of an 18 hours of rientation/professional skills development and 60 hours of volunteer work experience per unit with a maximum of 240 for four units per semester OR 75 hours of paid work experience per unit, with a maximum of 300 for four units per semester. (Pass/No Pass or Letter Grade).

#### **ENTEPRENEURSHIP**

FNP-804 Twitter for Business

Prerequisite: None Description: Students learn to set up a Twitter Business presence to leverage the power of real-time marketing, optimize and manage an account, and find and follow influencers and leads. Includes engaging with prospects using tweets, RTs, DMs, follows, mentions, and hashtags. Students use tools to monitor feeds and schedule tweets, in addition to tracking the impact and measure the results of promoted tweets. 10 hours lecture. (Pass/No Pass only)

39432 ENP-804

Online classes are distance education classes with no scheduled meeting days. Students will log in to Canvas and complete work regularly throughout the week. Canvas and other technologies will be required to complete coursework. Please note the start and end dates of this non-credit course.

ON-LINE

R Wolfer

Prerequisite: None Description: LinkedIn is the world's most popular business-oriented social media networking platform. Students learn to use LinkedIn to develop business through relationship marketing. Topics include optimizing a company profile, developing content that engages a target audience, building a professional brand, marketing a company, showcasing credentials, getting business advice, reconnecting with former colleagues, and connecting with businesses around the globe. 10 hours lecture. (Pass/No Pass only)

39433 ENP-805 ON-LINE R Wolfer 09/23 - 11/03/24 Lecture

Online classes are distance education classes with no scheduled meeting days. Students will log in to Canvas and complete work regularly throughout the week. Canvas and other technologies will be required to complete coursework. Please note the start and end dates of this non-credit course.

#### INTERDISCIPLINARY STUDIES

ILA-800 Supervised Tutoring

Prerequisite: None Corequisite: Student must be enrolled in at least one other non-tutoring course. Description: This self-paced, open-entry/open-exit non-credit course provides supervised tutoring, assistance with study skills, and guidance in completing basic skills or college-level course assignments. Students receive individualized tutoring and/or small group instruction outside of class time in a discipline-specific lab. Designed to help students achieve outcomes related to specific courses and/or to improve learning and study skills in specific related subjects. Content varies according to the course for which tutoring is sought. Up to 216 hours laboratory. (TBA option) (Non-degree, non-credit course.) 38881 ILA-800 LIBR-LRC N Capps 08/19 - 12/14/24

### MANUFACTURING TECHNOLOGY

MAN-860 Hydraulic and Pneumatic Systems

Prerequisite: None Description: Basics of hydraulic and pneumatic systems including physical properties of liquids under pressure. Pumps, motors, accumulators, valves and drive cylinders are studied. The design and assembly of both high and low pressure fluid control systems from standard components is experienced. Applications of fluids in robotic and

industrial equipment systems are presented. 54 hours lecture and 54 hours laboratory. (Letter grade or Pass/No Pass option)

0 06:00PM-09:10PM IT-125 39405 MAN-860 P Van Hulle 08/19 - 12/14/24 Th 06:00PM-09:10PM IT-123 I ab 08/19 - 12/14/24

Canvas and other online applications may be required to complete coursework.

# **PROFES. DEVELOPMENT STUDIES**

Business Writing in a Technological World

Prerequisite: None Description: Participants will develop effective and professional business writing skills using business tone, organization and formatting, word choice and persuasion. Matching the delivery channel (email, letter, memo, or text) to the message type and situation will be covered, as well as the best methods to deliver bad news. 12 hours lecture. (Pass/No Pass only) 39076 PDS-809 ON-LINE A Thomas 09/30 - 10/25/24

The above is a short term online class. Please note the start and end dates. Computer with Internet access required. See www.rccd.edu/de

PDS-810

Prerequisite: None Description: Participants explore time management strategies and tools for effectively managing expanding workloads, shifting priorities and increasing demands. Practice prioritizing "important" versus "urgent" activities. Emphasis on analyzing current use of time; identifying organizational goals, roles and priorities; discovering gaps to achieving goals; and applying time management tools to the gaps to complete important priorities first. 12 hours lecture. (Pass/No Pass only) 11/14 - 12/06/24

39077 PDS-810 **ON-LINE** R Wolfer

The above is a short term online class. Please note the start and end dates. Computer with Internet access required. See www.rccd.edu/de
