ACADEMIC LITERACY AND READING

ALR-1 Reading Tutor Training

Prerequisite: None. Advisory: REA-3 or REA-83, ENGL-C1000 or ENGL-C1000H. Description: Designed to prepare students to become peer tutors in the Reading and Writing Center. Participants learn specific tutoring techniques and discuss problems, questions, and challenges in tutoring reading. Tutors develop student-centered, non-intrusive tutoring skills. 27 hours lecture and 27 hours laboratory. (Letter grade or Pass/No Pass option)

11:10AM-12:35PM QD-116

R Bothwell

47000 ALR-1 Lecture LTC 2

MLK-124

In addition to the time spent in the above class, students are required to fulfill the 27-hour lab requirement. Canvas and other technologies may be required to complete coursework.

ALR-2 Strategic Reading

Prerequisite: None. Description: Intended for readers who are interested in enhancing reading flexibility and effectiveness in comprehension, vocabulary, and study skills. Students practice using a variety of comprehension strategies, including computer assisted instruction. 36 hours lecture. (Letter Grade, or Pass/No Pass option)

08/25 - 12/18/25

APPRENTICE

APP-450 Apprenticeship Work Experience

Prerequisite: None Description: Opportunity to develop attitudes, skills, and knowledge consistent with their selected trade. A journeyman or professional mentor provides instruction and evaluation of skills expected of an apprentice. Emphasis is on trade employability skills and attitudes. Students complete apprenticeship work experience hours at approved trainingsites. This four-unit course requires 300 hours of paid work experience. Students may take up to 16 units of apprenticeship work experiences course offerings. (Letter grade or Pass/No Pass option.)

47352 APP-450 Lecture 4 ON-LINE 08/25 - 12/19/2

Online classes are distance education classes with no scheduled meeting days. Students will log in to Canvas and complete work regularly throughout the week. Canvas and other technologies will be required to complete coursework. This section is restricted to students participating in Riverside City College Automotive Apprenticeship Program. For more information about the apprenticeship program, please contact John.wilson@rcc.edu

BAKING

BAK-46 Fundamentals of Baking and Pastry

Prerequisite: None Description: An introduction to the fundamental skills, concepts, and techniques of baking. Through lectures, demonstrations and lab work, this elementary baking course will cover the theory of safety and sanitation, purchasing and receiving, business and math skills, weights and measures, baking terminology, the use of hand tools and equipment found in the bakeshop, the exploration of baking and pastry ingredients and their functions. Students will gain a working knowledge of the major methods such as creaming, blending, foaming, meringues, precooked, cut-in, lamination, straight dough, custards, pies, tarts, cookies and brownies. This course covers the steps in the bread baking process, straight dough mixing method, sponge dough mixing method, shaping rolls and breads, sour dough starters, nutritional and specialty breads, and organic bread with an emphasis on artisan breads, enriched yeast breads and specialty breads. Emphasis will be placed on fundamental production techniques and evaluation of quality characteristics. Creaming method will be covered by the production of muffins and quick breads, also included will be bread variations with low sodium and sugar. 54 hours lecture and 297 hours lab. (Letter grade only)

47383 BAK-46	Lecture	8.5	TTh	07:20PM-08:45PM CADO-140	J Orlando	08/25 - 12/19/25
	Lab		TWThF	03:00PM-07:20PM CADO-107		08/25 - 12/19/25

BAK-67 Viennoiserie and Breakfast Pastries

Prerequisite: None Advisory: CUL-50 or CUL-850 or Food Handler Certification from Riverside County or similar National Agency (ServSafe). Description: An introduction to laminated doughs, such as Danish, Croissant, Puff Pastry and other breakfast pastries. This course will focus on various lamination and folding techniques related to these doughs, and reviewing the final products made from them. A focus will be aimed towards the various mixing styles. The production of pastry fillings will also be made, including fruit, custard, and almond cream.(18 hours lecture. 27 hours lab. (Letter Grade Only).

47386 BAK-67	Lecture	1.5	S	03:00PM-05:20PM CADO-136	10/25 - 12/13/25
	Lab		S	05:20PM-08:55PM CADO-107	10/25 - 12/13/25

The above section is a short term class. Please note the start and end dates. Canvas and other online applications may be required to complete coursework.

BAK-70 Cake Mixing Techniques

Prerequisite: None. Advisory: CUL-50 or CUL-850 or Food Handler Certification from Riverside County or similar National Agency (ServSafe). Description: An intermediate course on cake mixing methods and techniques. This course will introduce students to the various techniques and skills needed to prepare and bake various styles of cakes, including egg foam batters and high fat cake batters, all from scratch. Emphasis will be aimed at the quality of baked product, and how the mixing method techniques effect the final quality. The science on ingredient functionality will also be discussed in greater detail. 18.00 hours lecture and 27.00 hours laboratory. (Letter grade only)

SECT# Course#	Instruction	ZTC/LTC	Units	Days	Time	Bldg-Room	Instructor	Dates
49343 BAK-70	Lecture		1.5	M	04:00PM-06:20PI	M CADO-136		08/25 - 10/13/25

The above section is a short term class. Please note the start and end dates. Canvas and other online applications may be required to complete coursework.

BAK-71 Pies, Tarts, and Fillings

Prerequisite: None. Advisory: CUL-50 or CUL-850 or Food Handler Certification from Riverside County or similar National Agency (ServSafe). Description: An intermediate course on pies, tarts, and fillings, including the crust, assembly techniques, and baking. Students will be making and baking pies and tarts from scratch, including all of the components necessary for them. A good pie starts with a good pie crust, and the different types of doughs used for both pies and tarts will be discussed in greater detail. Emphasis will be directed to the various types of fillings, assembly, and finishing techniques. 18.00 hours lecture and 27.00 hours laboratory. (Letter grade only)

49345 BAK-71 Lecture 1.5 S 03:00PM-05:05PM CADO-136 08/30 - 10/18/25 Lab S 05:05PM-08:15PM CADO-107 08/30 - 10/18/25

The above section is a short term class. Please note the start and end dates. Canvas and other online applications may be required to complete coursework.

BAK-72 Quickbreads, Muffins and Pastries

Prerequisite: None. Advisory: CUL-50 or CUL-850 or Food Handler Certification from Riverside County or similar National Agency (ServSafe). Description: An intermediate course on mixing methods and techniques, in the production of muffins, quickbreads, and p#te # choux items. Students will discuss the various skills and techniques used for making muffin and quickbread batters. The introduction of p#te # choux will also be discussed in great detail. Mini pastry displays will also be included in this course. Additional pastry items include biscuits and scones. 18.00 hours lecture and 27.00 hours laboratory. (Letter grade only)

49347 BAK-72 Lecture 1.5 M 04:00PM-06:05PM CADO-136 10/20 - 12/15/25 Lab M 06:05PM-09:15PM CADO-107 10/20 - 12/15/25

The above section is a short term class. Please note the start and end dates. Canvas and other online applications may be required to complete coursework.

BAK-73 Buttercreams and Cake Assembly Techniques

Prerequisite: None Advisory: CUL-50 or CUL-850 or Food Handler Certification from Riverside County or similar National Agency (ServSafe). Description: An intermediate course on making buttercreams from scratch, and various techniques and skills involved with cake assembly techniques. Students will prepare and make fresh buttercreams, including Swiss, Italian, and French, and assemble cakes for various occasions. The classic European cakes will also be assembled in this class, and may include G#teau l'Op#ra, Dobostorte, Schwarzw#lder Kirschtorte, Sachertorte, and Princess Torte. Marzipan will also be highlighted in this course. Students are highly encouraged to have an understanding of cake mixing techniques prior to taking this course, but not required. 18.00 hours lecture and 27.00 hours laboratory. (Letter grade only)

49349 BAK-73 Lecture 1.5 W 03:00PM-05:05PM CADO-136 10/22 - 12/17/25 Lab 05:05PM-08:15PM CADO-104 10/22 - 12/17/25

The above section is a short term class. Please note the start and end dates. Canvas and other online applications may be required to complete coursework.

BAK-74 Cost Control for Professional Skills in Baking

Prerequisite: None. Description: A complete view of math skills for the professional baker, and applying those learned skills into costing out a recipe, and providing a menu price. This course will discuss the various math elements as they pertain to baking, including bakers percentages, and understanding how to cost out ingredients based on supplier information. Students will understand how to read SPEC sheets, and how to properly convert those costs to make sure profits can be made. Students are highly encouraged to have a general understanding of basic math skills, including fractions and decimals, but it is not required. 27.00 hours lecture and 27.00 hours laboratory. (Letter grade only)

49351 BAK-74 Lecture 2 M 06:00PM-07:25PM CADO-140 08/25 - 12/19/25 Lab 07:25PM-08:50PM CADO-111 08/25 - 12/19/25

BIOLOGY

BIO-1 General Biology

Prerequisite: None. Description: Introductory course designed for non-science majors that offers an integrated study of the basic principles of biology, with emphasis on the principles of structure and function, genetics, development, evolution, and ecology. Discussions on the philosophy, concepts, and implications of modern biology will be included. Students may not receive credit for both BIO-1 and BIO-1H. 54 hours lecture and 54 hours laboratory. (Letter grade only)

BIO-18 Human Genetics

Prerequisite: None. Advisory: High school biology or any college life science course with laboratory. Description: A general education course for non-biology majors and allied health students who are interested in the underlying mechanisms of human heredity. Emphasis will be given to the role of genetics and environment on cells, individuals, family and human populations. Discussion on human genetic disorders and the social implications of modern human genetics will be included. 54 hours lecture. (Letter grade only)

48218 BIO-18 Lecture 3 ON-LINE B Smith 08/25 - 12/19/25

Online classes are distance education classes with no scheduled meeting days. Students will log in to Canvas and complete work regularly throughout the week. Canvas and other technologies will be required

to complete coursework. The section is restricted to Alvord USD students participating in Riverside City College's College and Career Access Pathways Program.

48219 BIO-18 Lecture 3 ON-LINE M Jazayeri 08/25 - 12/19/25

Online classes are distance education classes with no scheduled meeting days. Students will log in to Canvas and complete work regularly throughout the week. Canvas and other technologies will be required to complete coursework.

BUS-53 Introduction to Personal Finance

Prerequisite: None Description: An introduction to personal finance focusing on mastering the key concepts involved in attaining personal wealth. Personal finance focuses on the concepts, decision-making tools, and applications of financial planning. A financial plan will be utilized to guide decisions today and in years to come. Additional emphasis will be placed on interpreting financial information obtained online, the theory and practice regarding income tax law, health insurance provisions, retirement programs, and personal investing. 54 hours lecture. (Letter Grade, or Pass/No Pass option.)

47427 BUS-53 Lecture 3 W 06:00PM-07:25PM A Maez 08/25 - 12/19/25 ON-LINE 08/25 - 12/19/25

The above section requires a computer with internet access as Canvas and other technologies will be required to complete coursework. See https://rccd.edu/de

COM	И-C1000H	Introduction to Public Speaking - Honors						100H Prerequisite: None Li	

COMM-C1000H was formerly COM-1H. Students who completed COM-1 or COM-1H successfully do not need to enroll in COMM-C1000H. Prerequisite: None. Limitation on enrollment: Enrollment in the Honors Program Description: In this course, students learn and apply foundational rhetorical theories and techniques of public speaking in a multicultural democratic society. Students discover, develop, and critically analyze ideas in public discourse through research, reasoning, organization, composition, delivery to a live audience and evaluation of various types of speeches, including informative and persuasive speeches. This is an honors course. Students will construct and present a minimum of three (3) faculty-supervised, faculty-evaluated speeches presented in front of a live (in-person or virtual) audience (one to many). This Honors course offers an enriched experience for accelerated students through limited class size; seminar format; focus on primary texts; and greater application of higher level critical thinking skills. Students may not receive credit for both COMM-C1000 and COMM-C1000H. 54 hours lecture. (Letter Grade, or Pass/No Pass option) (Formerly COM-1H) 08/25 - 12/19/25

49091 COMM-ZTC MW 12:45PM-02:10PM QD-118 J Baney

C1000H

This section is designed for students in the Honors Program. Canvas and other online applications may be required to complete coursework.

COMPUTER APPLICATIONS/OFFICE

CAT-1A **Business Etiquette**

Prerequisite: None Description: Practical human relations skills with a primary emphasis on soft skills and expected workplace behaviors. Includes the essentials of appropriate and professional business communications and protocols using email, text, phone, portable devices, video and teleconferencing, and social media in the workplace. 18 hours lecture. (Letter grade, or Pass/No Pass option.)

Prerequisite: None Advisory: CIS-1A, CIS-26A and CIS-27 Description: Introduces the network security specialist to the various methodologies for attacking a network. Students will be introduced to the concepts, principles, and techniques, supplemented by hands-on exercises, for attacking and disabling a network within the context of properly securing a network. The course will emphasize network attack methodologies with the emphasis on student use of network attack techniques and tools and appropriate defenses and countermeasures. Students will receive course content information through a variety of methods: lecture and demonstration of hacking tools will be used in addition to a virtual

Prerequisite: EAR-20 and EAR-24 and EAR-28 and EAR-42. Description: Students will demonstrate developmentally appropriate early childhood program planning and teaching competencies, under the supervision of ECE/CD faculty and other qualified early education professionals. Students will utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Child-centered, play-oriented approaches to teaching, learning, and assessment; and knowledge of curriculum content areas will be emphasized as student teachers design, implement and evaluate experiences that promote positive development and learning for all young children. Reflective practice will be emphasized as student teachers design, implement, and evaluate approaches, strategies, and techniques that promote development and learning for children from varied backgrounds and experiences. Includes exploration of career pathways, professional development, and teacher responsibilities. 36 hours lecture and 108 hours laboratory. (Letter grade only)

SECT# Course# ZTC/LTC Units Days Time Bldg-Room ENGL-4 Writing Tutor Training Prerequisite: ENGL-C1000 or ENGL-C1000H. Description: Designed to prepare students to become peer tutors in the Writing Center. Participants learn specific tutoring techniques and discuss problems, questions, and challenges in tutoring writing. Tutors develop student-centered, non-intrusive tutoring skills that avoid appropriating the text (i.e., becoming a proofreader, editor, or co-author). Topics include theory and practice of tutoring writing, including writing as a process, interpersonal communication techniques, cross-cultural tutoring, group learning, and computer programs applicable to writing instruction. 27 hours lecture and 27 hours laboratory. (TBA option) (Letter grade only) 49003 ENGL-4 Lecture ZTC 2 W 08:00AM-09:25AM MLK-124 D Kruizenga-Muro 08/25 - 12/19/25 08/25 - 12/19/25 In addition to the time spent in the above class, students are required to fulfill the 27-hour lab requirement. Canvas and other technologies may be required to complete coursework. FNGI-6 British Literature I: Anglo-Saxon through Eighteenth Century Prerequisite: Eligibility for college-level composition or qualifying placement for ENGL-C1000. Advisory: ENGL-1B or ENGL-1BH Description: A survey of British literature from the eighth century CE to 1800, including a comprehensive exposure to the poetry, drama, and fiction of this era as well as a basic understanding of the cultural, intellectual, and artistic trends it embodies. 54 hours lecture. (Letter Grade, or Pass/No Pass Option.) 49000 ENGL-6 TTh 09:35AM-11:00AM QD-203 K Sell 08/25 - 12/19/25 Canvas and other technologies may be required to complete coursework. FNGI -7 British Literature II: Romanticism through Modernism/Post-Modernism Prerequisite: Eligibility for college-level composition or qualifying placement for ENGL-C1000. Advisory: ENGL-1B or ENGL-1BH Description: A survey of British literature from 1800 to the present, including a comprehensive exposure to the poetry, drama, and fiction of this era as well as a basic understanding of the cultural, intellectual, and artistic trends it embodies. 54 hours lecture. (Letter Grade, or Pass/No Pass Option.) 49002 ENGL-7 Lecture LTC 3 TTh 02:20PM-03:45PM QD-203 A Holod 08/25 - 12/19/25 Canvas and other technologies may be required to complete coursework. ENGL-11 Creative Writing Prerequisite: ENGL-C1000 or ENGL-C1000H Description: Studies in fundamental principles and practice of writing fiction, poetry, and nonfiction. Lectures and discussions emphasize analysis of professional examples of creative writing drawn from multiple historical and cultural traditions as well as the study of creative writing theory. In-class workshops provide practice in creative writing techniques. In-class and out-of-class class writing assignments provide practice in writing techniques and in peer- and self-analysis. 54 hours lecture. (Letter Grade, or Pass/No Pass Option.) 48997 ENGL-11 Lecture LTC MW 09:35AM-11:00AM QD-203 J Ducat 08/25 - 12/19/25 Canvas and other technologies may be required to complete coursework. ENGL-14 American Literature I: Pre-Contact through Civil War Prerequisite: Eligibility for college-level composition or qualifying placement for ENGL-C1000. Advisory: ENGL-1B or ENGL-1BH Description: A survey of American literature from pre-contact to the Civil War, including a comprehensive exposure to the prose, poetry and fiction of this era and a basic understanding of the cultural, intellectual and artistic trends it embodies, including various narrative threads and points of contention within and among diverse racial and cultural groups in America during this period. 54 hours lecture. (Letter Grade, or Pass/No Pass option) 48998 ENGL-14 Lecture 3 MW 12:45PM-02:10PM QD-203 T Amidon 08/25 - 12/19/25 Canvas and other technologies may be required to complete coursework. ENGL-24 Survey of Asian American Literature Prerequisite: None. Advisory: ENGL-1B or ENGL-1BH. Description: A survey of Asian American literature from the mid-19th century to the present. Includes a comprehensive exposure to Asian American prose, poetry, drama, and fiction, as well as a basic understanding of the social, political, intellectual, and artistic trends of Asian American culture and their relationship to literature. 54 hours lecture. (Letter Grade, or Pass/No Pass option.) Introduction to Black Feminism

Prerequisite: None. Description: An interdisciplinary, multi-perspective, critical analysis, and comparative study of Black Feminism and Womanism in the United States. The course provides an introduction to the study of Black feminism and womanism in the fields of African American Studies, Africana Studies, and Black Studies. students will examine the development and evolution of key theories, methodologies, approaches, and ideas in Black Feminism, Womanism and Black Feminist Thought. These include proto-Black feminist thinkers like Sojourner Truth (1797-1883), Josephine St. Pierre Ruffin (1842-1924), Ida B. Wells-Barnett (1862-1931), Maria W. Stewart (1803-1879), and Anna Julia Cooper (1858-1964). Topics will include activism and organizing at the turn of the century, the radical transition in Black feminism and Black feminist thought, Africana Womanism, womanist theory, the theory of intersectionality, and standpoint theory. The course will consider how Black women in the United States have challenged the intersecting effects of misogynoir, racism, sexism, classism, colonialism, homophobia, media exploitation, and other forms of social violence. Students will read major works, seminal texts, and engage in critical dialogue, and articulate their own positions concerning the basic ideas and principles of Black Feminism. The values, experience, and cultural contributions of Black feminist and/or Black womanist individuals in the United States will be identified, examined, and authenticated. 54 hours lecture. (Letter grade only) TTh 09:35AM-10:00AM QD-227

Canvas and other online applications may be required to complete coursework.

HIS-14 African American History I

Prerequisite: None. Description: A survey of the experience of Americans of African descent in America from the 1600s to 1865. The course begins with the history of African American culture(s) and identities. It then culminates with emancipation at the end of the Civil War. Although the history of African Americans is one of struggle and almost constant adversity, it is also one of strength and perseverance. In spite of the challenges, African Americans lived, loved, formed enduring communities, and created a unique culture. Since their involuntary arrival on the shores of North America during the early seventeenth century, Africans and their descendants confronted adversity by means of individual and SECT# Course# Units Days ZTC/LTC Bldg-Room Dates collective action in numerous ways. The course explores these dimensions of the African American experience, and in so doing, highlights the multifaceted ways African Americans have made their own history while simultaneously shaping and contributing to the history of the United States. 54 hours lecture. (Same is ETS-14) (Letter grade only) MW 11:10AM-12:35PM QD-228 48110 HIS-14 7TC 3 M Frierson 08/25 - 12/19/25 Lecture Canvas and other online applications may be required to complete coursework. Modern European History Prerequisite: None Description: A survey of the developments that have shaped Europe's political, economic, social and cultural development since 1900, with emphasis on European and world relationships since 1750. Major topics will include the Enlightenment, the French and Haitian Revolutions, the Nineteenth-Century Revolutions, the rise of science and technology, the effects on Europe of the World Wars and the power blocks, along with the reason for current European attitudes. The course will discuss historical debates on where the limits of Europe have been drawn over time, how Europe has written itself, and been characterized by others. We will also consider identity, knowledge, religion, and how change can be possible, positive, and long-lasting in various historical contexts. We will also explore disasters and potential "modernities gone wrong": Colonization/Imperialism, two World Wars, Fascism, Genocide(s), and the Cold War in a divided Europe. We will emphasize historical method, read primary and secondary sources, and in dialogic lectures discuss the debates regarding the European past tied up in questions of knowledge, philosophy, and politics up until the present day. 54 hours lecture. (Letter grade or Pass/No Pass option) 49260 HIS-18 Lecture ZTC 3 TTh 09:35AM-11:00AM QD-120 D Brown 08/25 - 12/19/25 Canvas and other online applications may be required to complete coursework History of Mexico Prerequisite: None. Description: A general survey of the history of Mexico from its pre-conquest origins, Spanish Conquest and colonial society, independence and political evolution, foreign intervention and modernization, Revolution and reforms, and continued development to the present. The class examines political, economic, cultural, and social transformations of the country with attention to local and regional experiences. It also looks at Mexico's relationship to the rest of the world, particularly the United States, and how these relationships impact the nation politically, economically, culturally, and socially. 54 hours lecture. (Letter grade only) ZTC 11:10AM-12:35PM QD-202 48114 HIS-25 3 TTh D Namala Lecture 08/25 - 12/19/25 Canvas and other online applications may be required to complete coursework. HIS-26 History of California Prerequisite: None. Description: A survey of the history of California from the pre-Columbian period to the present, with emphasis on the period since statehood in 1850. 54 hours lecture. (Letter grade only) 09:35AM-11:00AM QD-120 48115 HIS-26 MW M Seager 08/25 - 12/19/25 Canvas and other online applications may be required to complete coursework. HIS-28 Native American History to 1871 Contact Period Prerequisite: None. Description: A study of the European/Native American contact period from 1492 to 1871 as presented from the American Indian's point of reference. 54 hours lecture. (Same as ETS-28) (Letter grade only) 48116 HIS-28 Lecture ZTC 3 ON-LINE W Medina This section is an online class. Computer with Internet access required. See www.rccd.edu/de HIS-31 Introduction to Chicanx and Latinx Studies Prerequisite: None Description: A survey of intersectional and interdisciplinary approaches to introduce students to the range of issues, experiences, and methodologies that form the foundation of Chicanx and Latinx Studies. By considering the relationship between the creation of "Chicanx", "Latinx" and "American" identities, students will critically reconsider the borders that constitute the U.S. as a political and cultural formation. The course balances depth and breadth in its study of the variety of perspectives and experiences that come to be associated with U.S. Chicanx and Latinx peoples. Thus, we will analyze the histories of migration and colonialism associated with predominant U.S. Latinx sub-groups, such as Mexican Americans/Chicanx people and Puerto Ricans, while also centering considerations of the ways in which broader populations with ties to Central America, South America, and the Caribbean play crucial roles in constituting Latinidad. Topics include the U.S./Mexico border and borderlands; immigration, migration, and diaspora; literary and cultural traditions; music and expressive practices; labor and structural inequality, social movements; Latinx urbanism; gender and sexuality; political and economic shifts; inter- and intra-group relations; and indigineity and Blackness in Latinidad. Sources include a range of social science and humanities scholarship. (Same as ETS-2) 54 hours lecture. ZTC **ON-LINE** 48118 HIS-31 C Anahuac 3 08/25 - 12/19/25 This section is an online class. SECT# Course# ZTC/LTC Units Days Bldg-Room Time Instructor MAT-101A Corequisite Support for Math 1A Prerequisite: None. Corequisite: MAT-1A. Description: A concurrent corequisite course containing pre-calculus concepts designed to support students in MAT-1A (Calculus I). The course includes a review of topics covered in college algebra and trigonometry as appropriate, based on individual student needs. Topics are taught strategically throughout the semester to provide a "just in time" instruction of skills needed to master concepts in MAT-1A as they arise. A diverse approach to problem-solving processes and enhancement of study strategies will prepare the student for later university courses. 36 hours lecture. (Pass/No Pass) 08:10AM-10:15AM MTSC-102 49226 MAT-101A Lecture A Arias 08/25 - 12/19/25 The above section requires concurrent enrollment in MAT-1A-49220. 49227 MAT-101A Lecture 2 10:50AM-12:55PM MTSC-102 V Merrill 08/25 - 12/19/25 The above section requires concurrent enrollment in MAT-1A-49221. 2 F 49228 MAT-101A Lecture 01:30PM-03:35PM MTSC-102 H Chen 08/25 - 12/19/25 The above section requires concurrent enrollment in MAT-1A-49222. 04:40PM-05:30PM MTSC-102 G Mendoza 49229 MAT-101A Lecture 2 Т 08/25 - 12/19/25 04:40PM-05:45PM MTSC-102 Th 08/25 - 12/19/25 The above section requires concurrent enrollment in MAT-1A-49223. 49230 MAT-101A Lecture 2 M 08:40PM-09:30PM MTSC-107 M Callahan 08/25 - 12/19/25 W 08:40PM-09:45PM MTSC-107 08/25 - 12/19/25 The above section requires concurrent enrollment in MAT-1A-49224. 49231 MAT-101A Lecture 2 08:40PM-09:30PM MTSC-102 E Reyes Т 08/25 - 12/19/25 Th 08:40PM-09:45PM MTSC-102 08/25 - 12/19/25 The above section requires concurrent enrollment in MAT-1A-49225. MAT-105 Corequisite Support for Math 5 Prerequisite: Qualifying Placement. Corequisite: MAT-5. Description: A concurrent co-requisite course containing geometry and algebra concepts designed to support students in Calculus for Business and Life Science. Topics include a review of skills developed in geometry and intermediate algebra; area and volume, factoring, graphing, operations on rational and radical expressions, linear, exponential and logarithmic expressions and equations, functions including composition and inverses, and an in-depth focus on linear and quadratic functions. Topics are taught strategically throughout the semester to provide a "just in time" instruction of skills needed to master concepts in MAT 5 as they arise in that course. A diverse approach to problem solving processes and enhancement of study strategies will prepare the student for later university courses. 36 hours lecture. (Pass/No Pass only) 48344 MAT-105 12:30PM-02:35PM MTSC-103 G Gavrilov Lecture 08/25 - 12/19/25 The above section requires concurrent enrollment in MAT-5-48399. 48345 MAT-105 Lecture 07:15PM-08:05PM MTSC-103 V Racataian Т 08/25 - 12/19/25 Th 07:15PM-08:20PM MTSC-103 08/25 - 12/19/25 The above section requires concurrent enrollment in MAT-5-48400. MAT-109 Corequisite Support for Mat-9 Prerequisite: None Corequisite: MAT-9 Description: A concurrent corequisite course containing arithmetic and basic algebra concepts designed to support students in BSTEM College Algebra. Topics include a review of skills developed in arithmetic and algebra: operations on real numbers, simplifying algebraic expressions, factoring, graphing linear functions, operations on rational and radical expressions, linear and quadratic expressions and equations. Topics are taught strategically throughout the semester to provide a "just in time" instruction of skills needed to master concepts in MAT-9 as they arise. A diverse approach to problem-solving processes and enhancement of study strategies will prepare the student for later university courses. 18 hours lecture. IRN-	12	Acute/Chronic Medical-S	urgical/Maternity Nursing						

NRN-12 Acute/Chronic Medical-Surgical/Maternity Nursing
Prerequisite: NRN-11 and NRN-11A Corequisite: NRN-12A Limitation on Enrollment (e.g. Performance tryout or audition): Enrollment in the Associate Degree Nursing Program.
Description: Focus on concepts necessary for quality, safe, evidenced-based patient-centered nursing care for diverse patient populations which include childbearing families, chronically-ill children, and acute and chronically-ill adults. Incorporates application of professionalism, leadership, caring, collaboration/communication, critical thinking, and informatics for the nurse in a variety of acute and chronic healthcare settings. Includes acquisition of nursing skills required in medical/surgical and maternal-child settings.

Application of knowledge, skills, and attitudes occurs in the nursing skills lab, simulation lab, and a variety of clinical settings. 81 hours lecture and 216 hours laboratory. (Letter grade only)

NRN-22 Advanced Medical-Surgical Nursing Across the Lifespan and Acute Pediatrics

Prerequisite: NRN-21 and NRN-21A. Corequisite: NRN-22A. Limitation on Enrollment: Enrollment in the Associate Degree Nursing Program. Description: Focus on concepts necessary for quality, safe, evidence based patient-centered nursing care for diverse patient populations experiencing complex alterations in health across the lifespan. Incorporates the application of professionalism, leadership, caring, collaboration/communication, critical thinking, and informatics for the nurse in a variety of acute and chronic health care settings. Includes acquisition of nursing skills required for patients experiencing complex health alterations across the lifespan. Application of knowledge, skills, and attitudes occurs in the nursing skills lab, simulation lab, and a variety of clinical settings. 81 hours lecture and 216 hours laboratory. (Letter Grade Only)

SECT# Course# ZTC/LTC Units Days Bldg-Room NRN-22A Nursing Learning Laboratory Prerequisite: NRN-21 and NRN-21A. Corequisite: NRN-22. Limitation on Enrollment: Enrollment in the Associate Degree Nursing Program. Description: On-campus lab that incorporates the application of quality, safe, patient-centered care, leadership, caring, collaboration/communication, critical thinking, and informatics of the nurse using various learning activities. Lab provides opportunities for deliberate practice of nursing skills to attain mastery and apply clinical knowledge, communication, leadership, critical thinking, and informatic skills through active participation in simulated clinical scenarios focused on the nursing care required for complex patient populations across the lifespan at a advanced beginner level. The on-campus required lab course is designed to complement the clinical lab experiences performed off-campus. 27 hours laboratory. (TBA option) (Pass/No Pass only) NURS-253 48531 NRN-22A 0.5 S Kroetz 08/25 - 12/19/25 Canvas and other online applications may be required to complete coursework. #For detailed information regarding this section, please refer to the corresponding Canvas course. 48532 NRN-22A 0.5 NURS-253 S Kroetz 08/25 - 12/19/25 Canvas and other online applications may be required to complete coursework. #For detailed information regarding this section, please refer to the corresponding Canvas course. 48533 NRN-22A NURS-253 0.5 S Kroetz 08/25 - 12/19/25 Canvas and other online applications may be required to complete coursework.#For detailed information regarding this section, please refer to the corresponding Canvas course. 48534 NRN-22A NURS-253 0.5 S Kroetz 08/25 - 12/19/25 Canvas and other online applications may be required to complete coursework. #For detailed information regarding this section, please refer to the corresponding Canvas course. 48535 NRN-22A **NURS-253** S Kroetz 0.5 08/25 - 12/19/25 Canvas and other online applications may be required to complete coursework. #For detailed information regarding this section, please refer to the corresponding Canvas course. 48536 NRN-22A 0.5 **NURS-253** S Kroetz 08/25 - 12/19/25 Canvas and other online applications may be required to complete coursework.#For detailed information regarding this section, please refer to the corresponding Canvas course. 48537 NRN-22A 0.5 **NURS-253** S Kroetz 08/25 - 12/19/25 Canvas and other online applications may be required to complete coursework.#For detailed information regarding this section, please refer to the corresponding Canvas course. 48538 NRN-22A **NURS-253** S Kroetz 0.5 08/25 - 12/19/25 Canvas and other online applications may be required to complete coursework.#For detailed information regarding this section, please refer to the corresponding Canvas course. 48539 NRN-22A 0.5 NURS-253 S Kroetz 08/25 - 12/19/25 Canvas and other online applications may be required to complete coursework. #For detailed information regarding this section, please refer to the corresponding Canvas course. 48540 NRN-22A NURS-253 08/25 - 12/19/25 0.5 S Kroetz Canvas and other online applications may be required to complete coursework.#For detailed information regarding this section, please refer to the corresponding Canvas course. PHI-11		Critical Thinking and Analytic Writing							

Prerequisite: ENGL-C1000 or ENGL-C1000H. Description: Presents critical thinking as a skillset employed in effectively understanding, evaluating, and constructing written arguments. Develops and enhances the student's ability to identify, analyze, and present arguments beyond the level achieved in English 1A. Topics covered through analysis and writing include the nature of argument, inductive and deductive reasoning, rhetoric, theory of knowledge, and common fallacies. This material will be introduced through the treatment of arguments from significant philosophers of culturally diverse backgrounds, arguments concerning the nature and application of scientific method, and arguments concerning topical social, political, and/or ethical issues. The central focus is instruction and practice in the composition of argumentative essays. Students write a minimum of 5000 words during the course. 54 hours lecture.(Letter grade only)

POLITICAL SCIENCE

48320 PHY-11

Honors Comparative Politics

Lab

Prerequisite: None Limitation on Enrollment (e.g. Performance tryout or audition): Enrollment in the Honors Program. Advisory: Eligibility for college-level composition or qualifying placement in ENGL-C1000. Description: A comparative study of selected European, Asian, African, Latin American and Middle Eastern political systems. Concerned with broadening and deepening the student's understanding of the nature and variety of political systems. Course topics will include a study of varying institutions, political cultures, identities, issues and policies of case study countries. This Honors course offers an enriched experience for accelerated students through limited class size, seminar format, and application of higher level critical thinking skills. Students may not receive credit for both POLS-2 and POLS-2H. 54 hours lecture. 08/25 - 12/19/25

09:35AM-12:45PM MTSC-204

49215 POLS-2H Lecture 3 TTh 09:25AM-11:10AM QD-118

This section is designed for students in the Honors Program. Canvas and other online applications may be required to complete coursework.

POLS-4 Introduction to World Politics

Prerequisite: None. Description: A study of the theories, paradigms, and issues of global politics. Special attention is given to the role of the United States in the international community, the role of international organizations and international political economy. 54 hours lecture. (Letter grade only)

08/25 - 12/19/25

WORK EXPERIENCE

WKX-200	General Work Experience
---------	-------------------------

Prerequisite: None. Advisory: Students should have paid or voluntary employment. Description: Work Experience is designed to coordinate the student's on-the-job training with workplace skills designed to assist the student in developing successful professional skills. Each student will establish measurable learning objectives appropriate for their job and discipline. Students may earn up to four (4) units each semester, for a maximum of 16 units of work experience total. 60 hours of volunteer work or 75 hours of paid work during the semester are required for each unit. No more than 20 hours per week, out of the 60 or 75 requirement, may be applied toward the work requirement. The course consists of an 18 hours of orientation/professional skills development and 60 hours of volunteer work experience per unit with a maximum of 240 for four units per semester OR 75 hours of paid work experience per unit, with a maximum of 300 for four units per semester.(Letter grade or Pass/No Pass)

COMPUTER INFORMATION SYSTEMS

CIS-830 Introduction to Python Programming: Part 1

Prerequisite: None. Advisory: Know the fundamental computer concepts and terminology used for input, processing, output, and storage. Know the basic features of software such as operating systems, and basic applications programs. Description: Introduction to the Python programming language by covering the basics of programming in Python to develop business, gaming, scientific and mathematical applications. 18 hours lecture. (Letter grade or Pass/No Pass option.)

47545 CIS-830 Lecture 0 S 12:00PM-02:05PM CIS-A208 08/30 - 09/27/25 Lab 0N-LINE 08/30 - 09/27/25

The above is a short term hybrid class; students must attend class in-person as scheduled. Please note the start and end dates. Computer with Internet access required. See www.rccd.edu/de The following online, noncredit course is free of enrollment fees and has unlimited repeatability. Grading is Pass/No Pass. This course is required for the Python Programming noncredit certificate.

47546 CIS-830 Lecture 0 ON-LINE 08/30 - 09/27/25

The above is a HYFLEX section; students can choose to attend class on campus in person or remotely during the scheduled times. Computer with Internet access required. See www.rccd.edu/de. The following online, noncredit course is free of enrollment fees and has unlimited repeatability. Grading is Pass/No Pass. This course is required for the Python Programming noncredit certificate.

CIS-831 Introduction to Python Programming: Part 2

Prerequisite: None. Advisory: CIS-830. Description: Introduction to decision and iteration statements used in the Python programming language to further advance the student in developing business, gaming, scientific and mathematical applications. 18 hours lecture. (Letter grade or Pass/No Pass option.)

47547 CIS-831 Lecture 0 S 12:00PM-02:05PM CIS-A208 10/04 - 11/01/25 ON-LINE 10/04 - 11/01/25

The above is a short term hybrid class; students must attend class in-person as scheduled. Please note the start and end dates. Computer with Internet access required. See www.rccd.edu/de The following online, noncredit course is free of enrollment fees and has unlimited repeatability. Grading is Pass/No Pass. This course is required for the Python Programming noncredit certificate.

47548 CIS-831 Lecture 0 ON-LINE 10/04 - 11/01/25

The above is a HYFLEX section; students can choose to attend class on campus in person or remotely during the scheduled times. Computer with Internet access required. See www.rccd.edu/de. This noncredit course is free of enrollment fees and has unlimited repeatability. Grading is Pass/No Pass. This course is required for the Python Programming noncredit certificate.

CIS-832 Intro to Python Programming: Part 3

Prerequisite: None Advisory: CIS-831 Course Credit Recommendation: Non-Credit Introduction to functions, arrays and file input/output statements used in the Python programming language to further advance the student in developing business, gaming, scientific and mathematical applications. 18 hours lecture. (Pass/No Pass option.)

47549 CIS-832 Lecture 0 S 12:00PM-02:05PM CIS-A208 11/08 - 12/13/25 ON-LINE 11/08 - 12/13/25

The above is a short term hybrid class; students must attend class in-person as scheduled. Please note the start and end dates. Computer with Internet access required. See www.rccd.edu/de This noncredit course is free of enrollment fees and has unlimited repeatability. Grading is Pass/No Pass. This course is required for the Python Programming noncredit certificate.

47550 CIS-832 Lecture 0 ON-LINE 11/08 - 12/13/25

The above is a HYFLEX section; students can choose to attend class on campus in person or remotely during the scheduled times. Computer with Internet access required. See www.rccd.edu/de. This noncredit course is free of enrollment fees and has unlimited repeatability. Grading is Pass/No Pass. This course is required for the Python Programming noncredit certificate.

CULINARY ARTS

CUL-828A Culinary Food Preparation I

Prerequisite: None. Limitation on Enrollment (e.g. Performance tryout or audition): Negative TB test required. Description: To develop skills in knife, tool, and equipment handling and apply principles of food preparation to produce a variety of food products, to operate equipment safely and correctly, to apply knowledge of laws and regulations relating to safety and sanitation. 30 hours lecture. (Letter grade or Pass/No Pass option)

47615 CUL-828A Lecture 0 ON-LINE J Lelle 08/25 - 12/19/25

The above is an online class. Computer with Internet access required. See www.rccd.edu/de

ENGLISH

ENGL-802 Composition Skills and Support for English C1000

Prerequisite: None. Limitation on Enrollment: Student must be actively enrolled in a section of English 1A to take this optional English 1A support course. Description: Offers composition skill support (primarily in reading strategies, writing process, and composition skills as needed from sentence-level skills to essay structure) for students concurrently enrolled in an English C1000 course. This optional non-credit 18 hour course provides students additional instructional time with a dedicated instructor and a community of other students also seeking additional support for their writing skills in order to successfully complete English C1000. (Pass/No Pass only)

The above short-term non-credit section requires a computer with internet access as Canvas and other technologies will be required to complete coursework. See https://rccd.edu/de. Please note the start and end dates. This non-credit course is free of enrollment fees and has unlimited repeatability. Grading is Pass/No Pass.

SECT# Course# ZTC/LTC Units Days Time Bldg-Room Instructor Dates ENP-803 YouTube for Business Prerequisite: None Description: Students learn to use YouTube to broadcast user and business-generated videos. Topics include creating a custom channel and building a following by uploading and sharing videos that communicate a brand and engage an audience. Students learn to view, upload, and share videos; create playlists and optimize videos for search engines; and add annotations, notes, and links. Uploading and editing film for YouTube is also covered. 10 hours lecture. (Pass/No Pass only) 47664 ENP-803 ON-LINE 10/25 - 11/01/25 The above short-term non-credit section requires a computer with internet access as Canvas and other technologies will be required to complete coursework. See https://rccd.edu/de. Please note the start and end dates. This non-credit course is free of enrollment fees and has unlimited repeatability. Grading is Pass/No Pass. Twitter for Business Prerequisite: None. Description: Students learn to set up a Twitter Business presence to leverage the power of real-time marketing, optimize and manage an account, and find and follow influencers and leads. Includes engaging with prospects using tweets, RTs, DMs, follows, mentions, and hashtags. Students use tools to monitor feeds and schedule tweets, in addition to tracking the impact and measure the results of promoted tweets. 10 hours lecture. (Pass/No Pass only) 47666 ENP-804 **ON-LINE** 11/08 - 11/15/25 The above short-term non-credit section requires a computer with internet access as Canvas and other technologies will be required to complete coursework. See https://rccd.edu/de. Please note the start and end dates. This non-credit course is free of enrollment fees and has unlimited repeatability. Grading is Pass/No Pass. Prerequisite: None Description: LinkedIn is the world's most popular business-oriented social media networking platform. Students learn to use LinkedIn to develop business through relationship marketing. Topics include optimizing a company profile, developing content that engages a target audience, building a professional brand, marketing a company, showcasing credentials, getting business advice, reconnecting with former colleagues, and connecting with businesses around the globe. 10 hours lecture. (Pass/No Pass only) 47667 ENP-805 ON-LINE 11/15 - 11/22/25 Lecture The above short-term non-credit section requires a computer with internet access as Canvas and other technologies will be required to complete coursework. See https://rccd.edu/de. Please note the start and end dates. This non-credit course is free of enrollment fees and has unlimited repeatability. Grading is Pass/No Pass. **INTERDISCIPLINARY STUDIES** ILA-800 Supervised Tutoring Prerequisite: None Corequisite: Student must be enrolled in at least one other non-tutoring course. Description: This self-paced, open-entry/open-exit non-credit course provides supervised tutoring, assistance with study skills, and guidance in completing basic skills or college-level course assignments. Students receive individualized tutoring and/or small group instruction outside of class time in a discipline-specific lab. Designed to help students achieve outcomes related to specific courses and/or to improve learning and study skills in specific related subjects. Content varies according to the course for which tutoring is sought. Up to 216 hours laboratory. (TBA option) (No grade) 47035 ILA-800 0 MI K-119 D Kruizenga-Muro 08/25 - 12/19/25 Lab The above section has a 54-hour lab requirement to be arranged. Students who enroll in this course must meet with the ILA 800 instructor in the Writing and Reading Center prior to logging in hours for this class. 48652 II A-800 MI K-221 A Burkhart 08/25 - 12/19/25 The above section is intended for students who need tutoring in Communication Studies (COM). **MATHEMATICS** Elementary Algebra Review - Algebraic Expressions Prerequisite: None. Corequisite: MAT-1A or MAT-1AH or MAT-1B or MAT-1C or MAT-2 or MAT-3 or MAT-5 or MAT-9 or MAT-10 or MAT-11 or STAT-C1000 or STAT-C1000H or MAT-23 or MAT-25 or MAT-26 or MAT-36 or MAT-70A or MAT-70B. Description: Description students that need to review the basic operations on real numbers and algebraic expressions. Self-paced, open-entry/open-exit, where students are required to do the majority of their coursework independently. Each student follows a sequential series of modules for the specified content. Students meet with their instructor for the end of course test and as needed for one-on-one instruction or small group study for the duration of the students' enrollment in the course. (18 hours lecture)(Pass/No Pass Only). 48403 MAT-801 0 Т 11:50AM-12:55PM MLK-305 Lecture I Durfee 09/02 - 12/16/25 The above section is a short term course.
